Test on a VF5.220 Engine.

We have now finished our project where we have installed a VF5.220 engine in a Sea Ray 240SS.
There are install a 26 "prop on a BRAVO 3 drive, where we could reach a maximum speed of 37 KN.
The test is performed with 100 Liter of fuel and 3 men onboard.

Fuel consumption:
See diagram of consumption and speed. The test took 1.5 hours and the consumption of the test was 11 liter diesel.
